

Feature and Function Guide of Bluetooth Neckloop

Physical Product

Illuminate

Get Connected in 4 Quick Steps

1. Charge Battery
2. Start Bluetooth on Cellphone
3. Pair Bluetooth and Cellphone
4. Test and Use

1. Charge Bluetooth Battery for 2 Hours

- A. Plug AC power charge into the end of bluetooth

The bluetooth indicator light turns on when the battery is charging

It may take up to 1 minute for the light to turn on.

When full charged (about 2 hours), the light will turn off.

- B. Unplug the AC power adaptor

Note: Bluetooth is not functional while charging. Charge from PC is applicable.

2. Start Bluetooth Feature on Your Phone

Your cellphone's Bluetooth feature is off by default. To use bluetooth neckloop, turn on the Bluetooth feature.

For most Motorola cell phones:

- A. Select **Menu > Settings > Connections > Bluetooth Link > Setup.**

- B. Scroll to **Power**

- C. Press **Change**

- D. Scroll to On

- E. Press **Select** to turn on the Bluetooth feature. Bluetooth feature remains on until you turn it off.

Note: These steps are for most Motorola cell phones. For other phones, see your phone's user's guide.

3. Pair Bluetooth and Cellphone

Before use neckloop, must pair it with your phone.

- A. Put Bluetooth in pairing mode

i. With the bluetooth power off, press and hold the call button for 6 to 10 seconds until the blue indicator light turns on and remains steadily lit. (The light will flash while you hold the call button)

ii. If the indicator light is flashing or does not remain steadily lit, turn off the bluetooth and repeat step i.

- B. The phone to look for bluetooth (for most Motorola phones:)

i. Select **Menu > Settings > Connection > Bluetooth Link > Handsfree > Look for Devices.**

The phone lists all Bluetooth devices it finds.

ii. Select **Motorola H500.**

iii. Press **OK** or **Yes** to pair the bluetooth.

iv. Enter the password **0000** and press **OK.**

While bluetooth is successfully paired with your phone, the indicator changes from steadily lit to flashing.

Note: These steps are for most Motorola cell phones. For other phones, see your phone's user's guide.

4. Test and Use

Your phone and headset are now paired and ready to make and receive calls after wear it in your neck. Make a call to test:

- A. Wear the neckloop as right side photo showing.
- B. Load battery and put earpiece in ear canal.
- C. On your phone, dial the number you want to call.
- D. If your phone and headset are successfully paired you will hear voice after connected with the dialed number.

After you have successfully paired your phone and bluetooth, you need not to repeat these initial steps each time you use bluetooth.

Troubleshooting

My phone does not find my bluetooth.

Make sure the blue light on your headset is steadily lit when your phone is searching for devices (see step 3)

My bluetooth worked before but now it's not working.

Make sure your phone is on and bluetooth feature is turned on (see step 2).

If you have confirm bluetooth feature is on in your phone, pair your phone and bluetooth again (see step 3)

Turn On and Off

To turn your bluetooth on, press and hold the call button until the indicator light flashes. Then release button.

To turn your bluetooth off, press and hold the call button until the indicator light flashes rapidly and then turns off.

Note: To conserve battery power, turn off your bluetooth when you don't lan to use it for a while.
